PROFESSIONAL EXPERIENCE

Trainee Java Developer – NLT InfoTech 2023 – Aug 2023

- Developed responsive UI with HTML, CSS, and JavaScript
- Enhanced features using Java frameworks in a team setting
- Optimized front-end performance and design for all devices
- Integrated RESTful APIs for smooth front-end/back-end communication

---

PROJECTS

Car Rental App(CarEase)

- Built a responsive Car Booking app using React.
- Added user login/registration and session management.
- Implemented car listing, details, and booking features.
- Used Axios + JSON Server for CRUD operations.

Food Delivery App

- Technologies Used: React, Tailwind Css.
- Fetching restaurant data from API and displaying it dynamically.
- Implemented search, based on cuisine or restaurant name filtering, veg/non-veg filter, and top-rated restaurants view.

Vehicle Maintenance Log

- Technologies Used: Html, Tailwind Css, JavaScript, Local Storage.
- Implemented add, view, and delete records with validation and localStorage persistence.
- Designed a responsive, workshop-friendly UI for managing two/four-wheeler service history.

Aadhar Application

- Technologies Used: Java, MySQL
- A digital application for managing Aadhar card data securely.
- Allowed real-time editing and deletion of user records based on specific requirements.
- Implemented robust validation mechanisms to prevent data inconsistencies.

Job Posting Portal – Franchisor-side APIs for Candidate Management

- Technologies: Spring Boot, PostgreSQL, Postman
- Developed REST APIs for Franchisors to manage candidate profiles, including registration, resume upload/download, and placement status tracking.
- Implemented role-based access using Spring Security and enabled bulk candidate uploads via Excel.
- Conducted API testing with Postman to ensure robust and secure functionality.

EDUCATION

RTMNU University | 2024
Master of Computer Application

- CGPA: 8.23/10
- University 2nd Merit Awardee

RTMNU University | 2022
Bachelor of Computer Application

- CGPA: 8.73/10

Maharashtra State Board | 2019
HSC

- 58.77%

Maharashtra State Board | 2017
SSC

- 70.60%

SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Bootstrap, Tailwind
Backend: Java, MySQL, Spring Boot
Other Technologies: REST APIs, Python
Tools & Platforms: Postman, VS Code, GitHub

EVENTS

Monsoon Recipe App – Hackathon Project | Team Leader
React JS, Bootstrap, GitHub, Vercel
Led a 4-member team to create a responsive monsoon recipe
web app using React JS and Bootstrap, managed version
control on GitHub, and deployed the project to Vercel for live
demonstration.
 (Live App: https://new-monsoon.vercel.app/).

CERTIFICATES

- **IT Vedant FWDJ (Full Stack Web Development With Java) | Ongoing..**
- **Python Programming (90 Hrs)**
    ID Tech Solutions Pvt Ltd – HOPE Foundation, Bangalore
    Grade: A+ | Apr 2025
    Completed practical industrial training in Python, certified by Skill India and FICCI.
- **MERN Stack Development | March 2025**
- **CCC (Course of Computer Concept) | September 2019**
